

Omar Tamer Fawzy Negm

AI Engineer

+201013372929 onegm036@gmail.com Dakahlia-Mansoura <https://www.linkedin.com/in/onegm/>

ABOUT ME

Results-oriented AI Engineering student and proven Project Leader with a track record of guiding cross-functional teams through the full development lifecycle of machine learning models. Expert at bridging the gap between complex neural network architectures and practical, user-centric applications. Adept at managing project timelines, delegating technical tasks, and ensuring high-quality deployment of AI systems.

EDUCATION

New mansoura university

2023-2028

AI ENGINEERING

Gpa: 3.2/4.00

WORK EXPERIENCE

Project Lead | ArabSyntax

2025-2026

snake house

Led a cross-functional team of engineering students to develop a deep learning model for Arabic grammatical analysis (I'rab) using Quranic datasets.

- Architected the model pipeline, overseeing data preprocessing, tokenization, and the implementation of Natural Language Processing (NLP) techniques.
- Optimized model accuracy by iteratively refining neural network layers, resulting in a significant improvement in parsing complex linguistic structures.

CERTIFICATES

AI & Data Science - Microsoft Machine Learning Engineer

2025-2026

Depsi

- expertise in machine learning, big data analytics, and generative AI

INTRODUCTION TO PYTHON

2025-2025

NTI

- technical proficiency in Python programming,

ACHIEVEMENTS

ICT Huawei Academy

2023-2024

- Regional Finalist in AI, Huawei ICT Academy African Phase **Top 10** of continental participants.

SKILLS

- Python
- Computer Vision
- c++
- NLP
- SQL
- Neural networks

LANGUAGES

- English: Professional working proficiency.
- Arabic: Native proficiency.
